**Operating Parameters
Dart Container Corp**

Carrier shall adhere to the following customer requirements:

Dart Container is the world's largest producer of single use food containers, and here is what you need to know about our carrier service requirements.

A large percentage of our loads are floor loaded, deliver to grocery warehouses, and requires Driver/Lumper unload at delivery.

Loads range from 700 to 1,300 cases weighing 8 -20 pounds each with total weight of 10-16,000 lbs. Unloading averages less than four (4) hours and you are free to use a "lumper" service, as we do "auto pay" we work with carriers to establish lumper rates by customer in our system with updating as needed.

We load primarily 53' DRY vans with swing doors unless other arrangements are made with the Dart Corporate Traffic Department in advance. Roll up doors, flat beds, and drop frames are not acceptable.

Our products are used in the food industry; so only food grade quality trailers will be loaded.

Trailers must be clean and odor free with no pallets or other product inside. All trailers must be free of:

- Any foreign substance on the floor or walls, including nails, oil, detergent, etc.
- Any holes, leaks or dampness in the trailer, or
- Any sign of rodents, rodent droppings, insects or any other type of animal (living or dead)

All trailers will be refused if any of these conditions exist and it WILL NOT BE LOADED. Drivers are not allowed to clean out trailers on Dart property. Any cleaning must be done off site and will not count towards detention wait time.

Drivers must comply with all Dart rules and regulations posted or explained by a Dart Container employee, and must make sure any passengers and/or pets in the cab stays in the tractor while on Dart property.

All loads must be sealed at the time of shipping, provided by DART, with seal numbers marked on the bill of lading.

We must be notified of all detention and OS&D claims in writing before the driver leaves the dock. When any product is refused, carrier contacts DART prior to leaving the customer's premises, for disposition.

2. Loading and/or unloading at or on the premises of the consignor, consignee or other designated party shall constitute one vehicle stop.
3. When a vehicle is both unloaded and reloaded, each transaction will be treated independently of the other, except that when loading is begun before the unloading free detention time is completed, the free detention time for loading shall not begin until the free detention time for unloading has elapsed.
4. When the Carrier's employee interrupts loading and/or unloading by the taking of any normal nonworking periods, any such time will be excluded from the computation of free time or will be excluded from the computation of time in excess.

When the vehicle is returned for completion of the loading or unloading the computation of any remaining free-time will resume.

- C. Request that the vehicle with power return on the morning of the next normal workday. However, if the free detention time had already expired there would be a charge for a layover in addition to the applicable detention charge.
6. When a vehicle with power unit is changed to a vehicle without power at the request of consignor, consignee, or other designated party, the free detention time and charges will be computed on the basis of a vehicle with power unit up to the time the change was requested and the detention time and charges for vehicles without power will immediately commence.

Carrier agrees to removal of any truck or trailer from Shipper's Premises immediately upon Shipper's request.

Carrier is **required** to notify Broker (which, in turn, will notify the consignee) of late deliveries as soon as the Carrier/driver is aware that it will not meet the delivery appointment.

Failure to notify Broker as required above will result in acceptance of responsibility of late fees to be paid by the carrier.

Carriers must adhere to the guidelines attached and may be required to complete the attached document or possibly other documents when arriving at shipping/receiving locations.

If drivers fail to pass requirements, they will be turned away from the facility. A driver's failure to pass the customer's requirements and/or the carrier's failure to make drivers aware of this requirement at the time of dispatch could result in Coyote denying any TONU charges or requests for additional costs stemming from rejected drivers.
